TIMOTHY TU LAM

Systems Administrator (Microsoft 365, Intune, Windows Server, Virtualization)

York, PA (Open to Relocation) | (717) 855-3960 | timlam3535@gmail.com

PROFESSIONAL SUMMARY

Systems administrator with 5+ years of IT experience, currently at an MSP, managing Windows environments, Microsoft 365, Intune, and Entra ID alongside virtualization (VMware, Scale Computing HC3), firewalls, and cloud infrastructure for approximately 1,000 endpoints across multiple client organizations. Troubleshoots server, network, and cloud problems through to root cause, keeps systems patched and securely configured, and documents configurations and procedures. Hands-on with Linux through development work and a Proxmox and Kubernetes (k3s) homelab. CJIS and MS-900 certified.

SKILLS

Windows & Server Infrastructure: Windows Server, Active Directory, patching and security configurations, performance and availability monitoring (Datto RMM), server and network maintenance, Microsoft Azure

Virtualization & Linux: VMware, Scale Computing HC3, Proxmox, Linux administration, Kubernetes (k3s), containerized deployments

SaaS & Endpoint Management: Microsoft 365 (Exchange Online, SharePoint, Teams), Microsoft Intune (MDM, compliance, patching), Microsoft Entra ID, Microsoft Purview

Networking & Security: TCP/IP, DNS, DHCP, VLANs, firewalls (UniFi, WatchGuard, Cisco Meraki), ThreatLocker, Microsoft Defender for Endpoint, CJIS/CIS security policy compliance, technical documentation

PROFESSIONAL EXPERIENCE

IT Systems Administrator Jan 2024 to Present

TeamCPT

- Serve as an escalation resource beyond frontline support for approximately 1,000 endpoints across multiple client organizations, resolving advanced server, desktop, networking, and cloud infrastructure issues and keeping systems available.
- Administer Microsoft 365 (Exchange Online, SharePoint, Teams), Microsoft Intune, and Microsoft Entra ID, including endpoint compliance policies, patching, and device management.
- Manage virtualization environments through VMware and Scale Computing HC3, and maintain Windows servers and Active Directory with a focus on reliability and security.
- Administer and troubleshoot firewalls and network platforms across WatchGuard, Cisco Meraki, and UniFi, including DNS, DHCP, and VLAN configuration.
- Monitor endpoint and server health through Datto RMM, and document configurations and procedures for the team.
- Diagnosed a persistent SFTP failure for a client after standard fixes (updates, restarts, upgrades) did not resolve it, by enabling SFTP logging and running the resulting log file through Microsoft Copilot, which surfaced an expired software license as the root cause, then stood up a secure workaround the same day so the client could resume sending files, and documented the fix for the team.

Jr. Software Engineer Jun 2022 to Apr 2023

Simple Tuition Solutions

- Wrote and debugged code in Ruby (Rails) to build and consume REST APIs in a Unix/Linux environment, and wrote SQL queries in MySQL/MariaDB to validate data and diagnose data-related issues.

IT Consultant Jul 2021 to Aug 2021

Penn State Health (via TEKsystems)

- Resolved VPN and networking issues in a high-ticket-volume healthcare IT environment, and wrote VBScript automation to streamline printer and network drive deployment.

Systems Administrator Apr 2021 to Jul 2021

WellSpan Health (via TEKsystems)

- Contributed to an enterprise-wide deployment of 1,000+ PCs across a healthcare network, imaging and configuring systems via SCCM, and deployed hardware including HP and Zebra printers, VoIP phones, scanners, and workstations.

PERSONAL PROJECTS

- Homelab: self-managed Proxmox virtualization host running a k3s Kubernetes cluster that hosts personal web applications such as Gym Hero (Next.js, TypeScript, MongoDB) and Music Shuffler (Flask), exposed publicly through Cloudflare Tunnels.

CERTIFICATIONS & AWARDS

- CJIS Certified (Criminal Justice Information Services Security Policy) | Microsoft Certified: MS-900 (Microsoft 365 Fundamentals), 2025
- ThreatLocker Cyber Hero Certified, 2025 | CIW Certified for Web Development (2017)
- Gold-level competitor, National Cyber League (2020) | CyberPatriot Platinum Tier, Top 100 nationally (2014 to 2018)

EDUCATION

Bloomsburg University of Pennsylvania: Coursework toward B.S., Computer Science (2018 to 2021) | York County School of Technology: High School Diploma, IT Specialization (2014 to 2018)
